

**CR Number:** 3115

**External Reference:** SAFER CR 174; Arch CRs 2933 and 3040

**Category:** SAFER XML

**Component:** SAFER/CVIEW

**Synopsis:** Add Company OOS data to T0031 transaction.

Summary: This transaction will be versioned to add company OOS data to the T0031 transaction.

Action: States are requested to comment as to whether there are additional MCMIS data fields they would like to see added to the T0031v2 transaction not currently seen in the T0031 transaction.

**Status:** Open

**Disposition:** [2005-05-24] Will be updated and posted to CVISN System Architects list serv for comments.

**Description:** MMA has requested that Company OOS flag and OOS date be added to the T0031 transaction.

SAFER has received OOS date and OOS flag from MCMIS since January 2005. In order for SAFER to deliver new data elements, a new version of the T0031 transaction will be created. States interested in receiving the new data elements will be required to change their XML schema and the program to accept the new data from the new T0031 transaction. States not interested in receiving those data will continue to use the current version of T0031.

[2005-04-25] Presented and discussed at the ACCB meeting on 2005-04-21. This transaction will be versioned to add additional MCMIS data fields to the transaction (T0031v2). States will only have to make modifications to their systems if they want these fields. Volpe asked the states if there are other MCMIS data fields that should be included in the new transaction. This CR will be posted to the CVISN System Architects list serv for comment and review.

[2005-05-34] Presented and discussed at the ACCB meeting on 2005-05-19. Volpe has additional data fields that could be added to this transaction. They will update the CR and post it to the CVISN Systems Architect list serv for comment by the states. Architecture CR 3040 (SAFER 152) - Add Carrier OOS data to the carrier snapshot, and Architecture 2933 (SAFER 124) - New values for REIVEW\_REASON\_NOT\_RATED were recommended for FMCSA approval late last year as a versioned T0031. It was suggested that both of these CRs be closed and incorporated into Arch CR 3115.
